

EYFS Curriculum

Careful consideration has been given to which themes, texts and experiences will excite the students and provide opportunities to teach the students what we want them to learn. Any themes we introduce are starting points for the children's play and learning as we are keen to develop themes following the children's interests

	Autumn Term	ne themes we cover are very	Spring Term	by the children are woven in o		nmer

Communication and Language	Building Communication Foundations	Developing Expressive Communication	Language	Expanding Vocabulary	Developing Social Communication Skills	Transition and Integration
	Students will:	Students will:	Students will:	Students will:	Students will:	Students will:
	 Develop listening and attention skills through sensory activities. Begin to understand and follow simple instructions and school routines. Engage in expressive language, using gestures and simple words during play. Explore vocabulary around us, like things we see and do every day. Use pictures to help students name and talk about these common things. 	increased engagement.	 Enhance listening skills through interactive games and activities. Follow one-step and progress to two-step instructions. Use visual supports alongside verbal instructions for better understanding. Learn vocabulary about people and jobs in the community by connecting them to real experiences. Use pictures, stories, and visits to reinforce understanding. 	 Expand vocabulary through child-led themed units, experiencing related sensory activities. Practice using words that describe size, weight, number, and position. Begin to participate in increased narratives, and sequence of events. Learn more vocabulary to describe things, such as colours and shapes. 	 Participate in planned/familiar conversations to improve social communication. Practice turn-taking through structured activities and games Join group activities with visual support to work together better. Develop vocabulary around feelings and time using pictures and real-life examples. 	 Remember and practice words already learnt, using pictures and routines. Use new words in different situations, applying knowledge learnt. Use language on purpose to explain, retell, and describe, encouraging expressive language growth.
Personal, Social and Emotional Development		Managing Feelings and Behaviour	Deletienskins	Developing Listening and Attention Skills	1 .	Building Resilience and wider Relationships
م-م	Students will:	Students will	Students will:	Students will:	Students will:	Students will:
	 Develop a positive sense of self through structured activities. Explore personal preferences and routines, gaining an understanding of the school's rules and values. Engage in activities incorporating visuals to provide a sense of security, creating an environment that supports their emotional well-being and 	Actively participate in	 Build positive relationships with both peers and adults through guided interactions. Focus on developing basic social skills, including turntaking and sharing, with the support of visuals. Utilise visual supports to enhance understanding of social interactions. Gain skills in using their independence, selecting and utilising classroom resources. 	 Actively engage in strengthening listening and attention skills through structured activities. Develop the skills for taking turns and actively practice these skills. Use visual cues to support and enhance their listening and attention. Gain knowledge about the names of feelings and develop the ability to manage personal hygiene, including 	 Develop independence by participating in ageappropriate tasks with less guidance. Become more independent in basic self-care skills, use visuals and routines for support. Learn about personal space and boundaries through structured and interactive activities. 	 Develop resilience through play and problem-solving activities. Explore diversity and different family structures through inclusive discussions. Initiate positive relationships with adults and peers across

Degin as lots of practice is needed Rhythm and Rhyme This aspect aims to develop students' appreciation and experiences of rhythm and rhyme in speech. Activities include rhyming stories; rhyming bingo; clapping out the syllables in words; and odd one out. Students will: -Join in with songs and rhymes and rhythms -Recognise familiar rhymes and rhythms -Recognise that words rhyme -Copy and keep a simple beat supply and solution of the syllables -Play with themes, making up silly words and rhyming stringsBreak words down into	Alliteration The focus is on initial sounds of words with activities including 'I-Spy' type games and matching objects which begin with the same sound. Students will: -Explore the initial sound of wordsSelect objects with a given initial sound from a choice of twoBegin to identify initial sounds of words -Match objects with the same initial sound	Voice Sounds The focus is to distinguish between different vocal sounds and to begin oral blending and segmenting. Students will: -Explore different mouth movements and sounds -Copy different voice sounds and mouth movements -Make a variety of different voice sounds such as animal noisesBegin to say speech sounds clearly (age appropriate) -Create and invent their own voice soundsBegin to count sounds in	
A	-Have experiences a wealth of -Be able to distinguish betweer The activities introduced in this knowledge and skills. Environmental The focus is to heighten students' awareness and develop listening skills through activities like listening walks, outdoor sounds, sound comparisons. Students will; -Notice sounds around them -Recognise that different objects make different sounds -Start to identify and name sounds -Talk about environmental sounds; describing and comparing.	Instrumental The focus is to enhance students' awareness of sounds from different instruments and noise makers. Activities involve comparing and matching instruments and quiet sounds. Students will: - Explore instrumental sounds. Students will: - Explore instrumental sounds. Students will: - Explore instrumental sounds of how to use instruments to make sounds -Start to identify the sounds of familiar instruments and name some of them -Talk about instrumental sounds describing and comparing them -Use instruments to recreate a sound from a given instruction	be able to segment and bend of when formal phonics sessions. Body Percussion The focus is to develop students' awareness of sounds and rhythms. Activities include singing songs and action rhymes, listening to music and developing a sounds vocabulary. Students will: -Explore the sound their body can make. -Join in and copy actions to familiar songs -Build awareness of how they can change body sounds. -Create their own sequence of sounds using their body -Follow instructions to create different sounds using their body e.g. 'stamp your feet loudly' or 'clap your hands	rally. begin as lots of practice is needed Rhythm and Rhyme This aspect aims to develop students' appreciation and experiences of rhythm and rhyme in speech. Activities include rhyming stories; rhyming bingo; clapping out the syllables in words; and odd one out. Students will: -Join in with songs and rhymes and rhythms -Recognise familiar rhymes and rhythms -Recognise that words rhyme -Copy and keep a simple beat in Join in and copy breaking words in to syllables -Play with themes, making up silly words and rhyming strings.
